

CREATE NODE-RED SERVICE

The screenshot shows the IBM Cloud console interface for a service named "Node RED APQZH 2022-11-08". The top navigation bar includes the IBM Cloud logo, a search bar, and links to Catalog, Manage, and the user profile. The main content area is divided into several sections:

- Details:** A table showing key information about the service:

Property	Value
App URL	https://node-red-apqzh-2022-11-08.eu-gb.mybluemix.net
Source	https://us-south.git.cloud.ibm.com/sandhiyasivakumar2001/N...
Resource group	Default
Deployment target	Node RED APQZH 2022-11-08
Created	8/11/2022
- Services:** A section for managing the service, including links to the Cloudant dashboard, documentation, API reference, and credentials.
- Deployment Automation:** A section showing the deployment process, including the name (NodeREDAPQZH2022-11-08), location (Dallas), tool integrations, and delivery pipelines (pr-pipeline, ci-pipeline).

An "ASK A QUESTION" button is visible on the right side of the console.

The screenshot shows the Node-RED web interface. The main workspace displays a flow named "Flow 1" with two nodes: an "inject" node and a "msg.payload" node. The left sidebar contains a list of nodes categorized under "common" and "function". The right sidebar shows the "info" panel, which displays the flow's name and a search bar for nodes.
